ABOUT R3 STEM CELL INTERNATIONAL

R3 specializes in performing the world's best regenerative therapies for over 70 different conditions, utilizing stem cell and exosome biologics that are second to none for effectiveness and safety. As the global leader in regenerative therapies, R3 has made its mission to provide the highest quality of regenerative biologics to patients at the most cost effective pricing. R3 believes that every patient deserves a first class experience with both safety and a stellar outcome being paramount.

Created in 2011 in Scottsdale, AZ, USA, R3 Stem Cell International has steadily grown to over 45 Centers of Excellence worldwide. Over 19,000 regenerative procedures have been performed since inception, with a continual success rate of 85% year after year!

Over 20 different "best practice" protocols have been created to optimize patient outcomes, with each individual receiving a tailored regimen best for his/her condition(s). Each Center incorporates biologics with top of the line quality assurance standards and providers who are highly qualified and compassionate.

OUR VISION

To improve quality of life for patients globally with regenerative therapies that are effective, safe and extremely affordable.

WHY PATIENTS WORLDWIDE TRUST US?

For over a decade, R3 has been changing lives with first rate regenerative therapies for many different conditions. Often times, patients and their families turn to R3 when conventional treatments have failed (or don't exist).

Since inception, R3's Centers have never experienced a significant adverse event. With safety being paramount, patients can rest assured they will be in the best hands at our Award Winning Centers and highly experienced, compassionate providers.

Don't take it from us, hear it from patients!

All of your questions and more are answered in the first of its kind Stem Cell Master Class, brought to you by the global leaders in regenerative medicine, R3 Stem Cell. Watch the first episode for free now, right to your inbox!

STEM CELL MASTERCLASS

As the global leader in regenerative therapies, R3 Stem Cell International knows that patients have way more questions than answers when it comes to stem cell therapy. Unfortunately, most patients searching for education on regenerative therapies end up receiving half truths, skewed facts, unrealistic or misleading information.

This is why R3 created the Stem Cell Master Class. With over 45 Centers of Excellence nationwide that have performed over 19,000 regenerative procedures collectively, the providers are a wealth of information on all aspects of regenerative care.

When a person is considering a regenerative cell therapy with growth factors, stem cells, exosomes, and cytokines, there are lots of considerations prior to making the investment. What to look for in a stem cell clinic? What are the differences in the biologics? What's reasonable to expect for an outcome? The Master Class offers those considering regenerative procedures vital information such as discovering how the process works, understanding the options that are given to them, learning the research behind it and gaining realistic expectations.

that is why the R3 Stem Cell Master Class exists! Listen to experts and hear from real patients describe their experiences. The Class consists of eight educational episodes spanning four entertaining hours that you can watch at your leisure.

Episode #1: What is a Stem Cell?

Episode #2: Types of Regenerative Procedures

Episode #3: Stem Cell Support for Optimal Outcomes

Episode #4: Stem Cell Mythbusters Part 1

Episode #5: Stem Cell Mythbusters Part 2

Episode #6: The Patient Experience

Episode #7: Success Stories

Episode #8: What Should You Look for in a Stem Cell Clinic?

Of course, there are many questions that patients don't know to ask. And
